SAT Preparation

Many colleges and universities use the SAT and SAT subject tests for admission decisions and to advise students about course selection. Those tests assess your academic readiness for college.

Our SAT teachers have degrees from the most prestigious universities, are test experts and exceptional teachers. Lessons cover the SAT's critical reading, writing, and mathematics sections, and the PSAT/NMSQT.

During lab hours students have access to lessons featuring interactive activities and multimedia content to create an engaging learning environment. The customization and convenience of our SAT subject test programs allow individualized lesson plans. Once a student finds the right fit, the possibilities are endless.

Program Highlights:

- 22 hours per week during 2 months;
- Official materials & strategy guides;
- 10 Computer adaptive practice tests;
- Free extra help with our tutors & unlimited access to our self study room, computer labs, and internet.

TEST PREPARATION MADE EASY

Good strategy and serious studying are the keys to your success.

INNOVATIVE TEACHING METHODS

To achieve a great score on a standardized test, you must learn not only the test subjects, but also strategies to perform under time constraints. Besides the lack of English, most international students have specific needs according to their countries of origin and previous education.

Our full-time courses cover the entire content of the exams, with a special focus on those topics that pose the most difficulty for international students. The part-time programs are designed for Americans and international students with previous experience in a university setting.

This specialized focus gives students an edge that "all-in-one" test prep companies cannot provide.

**Approach is authorized to enroll non-immigrant students

TOEFL IBT Program

The Test of English as a Foreign Language® (TOEFL) measures the ability of an international student to function in North American English as it is spoken, written and heard in an academic setting. Most colleges and universities in the USA require a TOEFL score before admitting an international student.

Our TOEFL IBT (Internet-Based Test) preparation program starts every Monday and lasts 2 months. During the first month, we teach strategies while presenting the four sections of the test: reading, listening, speaking and writing. In the second month, we focus on individual students' needs and extra practice while reviewing each session in depth.

Program Highlights:

- 22 hours per week during 2 months;
- Official TOEFL materials & strategy guides;
- 6 computer adaptive practice tests ;
- Free extra help with our tutors & unlimited access to our self study room, computer labs, and internet.

GMAT Preparation Programs

The Graduate Management Admission Test® (GMAT) is designed to measure basic verbal, mathematical, and analytical writing skills that have been developed over a long period of time through education and work. It is a requirement for most business schools and MBA programs.

Our GMAT course is led by experienced instructors with 99th percentile overall scores on the GMAT. Classes start every month and students can choose live or online instruction.

Program Highlights:

- 22 hours per week during 2 months;
- Official materials & strategy guides;
- 6 computer adaptive practice tests;
- Test Simulation Booklet, stopwatch, online skill-building labs;
- Challenge problem archive (700+level quant questions);
- Free pass for computerized GMAT essay grading, and various downloadable study aids;
- One 30-minute online or phone weekly session with an instructor.

**Approach students should use the code APP08 when registering for GMAT.
